VISION: A community of learners with shared values

MISSION: To nurture lifelong learning

February 11, 2013

To the Story Tellers of Canada

Dr. Jerry Haigh spoke to our students on November 21, 2012. His presentation was unique in several ways. First, he managed to hold the attention of the entire student body from kindergarten to grade eight. Secondly, he gave the students a choice of two possible presentations, thus ensuring their interest from the beginning.

Dr. Haigh's presentation was unique in its wonderful blend of fiction (folk tales from the region he was highlighting), and non-fiction (colourful accounts of his real life experiences as a wildlife veterinarian), and to complete the mix, he added awe inspiring photographs. His fluency between all three types of presentation was seamless.

Dr. Haigh was able to sweep our students off to another land with such vitality, that we would love to have him back again to share his other presentation. It is without hesitation that I recommend you ask Dr. Haigh to join your storyteller tour.

Sincerely,

D. (Denise) Singleton
Acting Principal
Kennedy Langbank School
